

Video conference – January 21st, 2026

Ludovic® Club

The Ludovic® Club

We have great pleasure in inviting you to the next Ludovic Club on **January 21st, 2026**, which will be held as a **2-hour** Visio conference starting at **3:00 PM CET (UTC+01:00)**

The Club is open to all Ludovic® users and aims to present the most recent developments of the software. Several industrial presentations are planned to illustrate the ways the Ludovic® software can be used, for different industries and applications. It also offers us the opportunity to present the developments of Ludovic V8. Ludovic v8.0 will be a major version, integrating a brand-new Optimizer module, called AI-GEN TSE.

At the end of the Club, we will share forms to gather your feedback about potential new features you would be interested in.

Several presentations are planned during the Ludovic® Club, with a focus on R&D, state of the art, and new Ludovic® integrations. The full schedule is presented on the next page.
